IN CASE OF WORK INJURY

• In case of work injury, notify your supervisor.

• For medical emergencies, call 911 and ask to be transported to the nearest hospital.

• During normal business hours, minor medical treatment, including minor chemical & lab animal exposures, are treated on-campus by the UT HealthPoint Occupational Health Program. Call 512.471.4OHP(4647) for an appointment.

• After hours, choose an urgent care provider of your choice that is in the workers’ compensation IMO Network using the Find-a-Provider search tool. http://injurymanagement.com/imo-med-select-network/find-a-provider/

• If your incident is after hours and involves exposure to lab animals, chemicals or biological agents, go to St. David’s Medical Center emergency room* to initiate post-exposure treatment.

On-Campus HealthPoint Occupational Health Program (OHP)

Student Services Building (SSB)
